Trusted by healthcare professionals and backed by an IRB study

Non-Detectable THC

Products for optimal results without a "high"

SUPERIOR MANUFACTURING

TOP REASONS PATIENTS SELF-TREAT WITH CBD

Health/Wellbeing

*Consumer Reports National Survey, 2020

THE ENDOCANNABINOID SYSTEM

WHAT IS THE ECS?

The ECS is made of cannabinoid receptors and endocannabinoids, which work together to maintain many of the body's physiological processes.

HOW IT WORKS

CBD interacts with the ECS, promoting homeostasis (balance), reduction in pain sensation and decreased inflammation.

AREAS IMPACTED BY CB1 RECEPTORS

- Inflammation
- Stress response
- Blood pressure
- Mood
- Memory

AREAS IMPACTED BY CB2 RECEPTORS

- Inflammation
- Immune system
- Bone and skin health
- Cardiovascular system
- Liver and kidney function

PATIENT TESTIMONIAL

"I trust your organization because it was doctor recommended. I got very clear information from the doctor and felt like this product was truly safe over those found from local shops."
